

Full or Part time Equine Associate Veterinary Surgeon
Location: Swan Valley, Perth, Western Australia
Type of Practice: Equine

An exciting opportunity is available for an enthusiastic, team orientated, experienced associate veterinary surgeon for a full or part time position at our growing 3-4 vet equine only first opinion and referral hospital.

Belvoir Equine Hospital is located on 64 acres of river frontage at a boutique TB stud farm in the beautiful Swan Valley, 30 minutes from Perth CBD and world class beaches. We are surrounded by horses, vineyards, quality restaurants and craft breweries, hence providing the perfect opportunity to balance professional career with lifestyle. The Swan Valley is a beautiful location to live in, providing all the attractions you would normally have to travel for.

The practice offers full surgical, medicine, performance, reproductive, intensive care and neonatal facilities, fully supported by a dedicated nursing team with everyone focusing on the level of professionalism, service and care provided.

The practice services some of Western Australia's leading studs and trainers as well as performance and pleasure horse owners. We have a full surgical facility and perform laparotomy, arthroscopy, laparoscopy, laser surgery and fracture repair procedures. Equipment includes digital radiography, ultrasound, video endoscopy, shock wave therapy, motorised dental rasp, laboratory facilities and surgical laser.

You will have primary case responsibility with the backup of experienced vets and qualified nurses, including a Recognised Specialist in Equine Surgery. Work will be both ambulatory and clinic based. All areas of equine practice will be covered, but development of an interest in a particular area will be strongly encouraged. In particular, there are extensive opportunities for someone with an interest in internal medicine, neonatal care, stud medicine or dentistry.

You will take part in an equally shared 'on call' roster with support and back-up always available.

You must hold a veterinary degree registerable in WA. Assistance with visas and sponsorship can be provided, but due to current travel restrictions, it is likely that you will need to already be resident in Australia or New Zealand, or possibly an Australian citizen returning from overseas.

Remuneration:

An extremely attractive package (well above award rate) commensurate with experience, 4 weeks annual leave, practice vehicle (or vehicle allowance) and mobile phone supplied. Accommodation is available. A work sponsored visa would be considered for international applicants.

To apply please send a CV and covering letter to gales.ascot@bigpond.com. We look forward to welcoming you to our small, dedicated and friendly team.
